TO WED IN ALASKA—Miss Rose Virginia Morino will leave Thursday evening for Juneau, Alaska where she will be married to Mr. Harry Duberstein. Miss Morino came to this city from Tucson over a year ago and has made many friends during her stay here. Mr. Duberstein was located with the reclamation service until last May when he left for Juneau. He is employed there as a mining engineer. Both of the young people are very popular and have made many friends here. The Misses Annie O'Connor, Maybelle Rudolph and Ruth Harvey will accompany Miss Morino as far as San Francisco where they will take in the exposition.

MARRIAGE LICENSE—John P. Hensley and Zoe M. Shumaker, both of Berkeley, California, were granted a marriage license Monday afternoon.

CONSIDERABLE FINES—Justice of the Peace Parker, aided and abetted by Deputy Sheriff Harrison Williams has collected \$120 in fines from speeders since Saturday.

UNDELIVERED TELEGRAMS—There are undelivered telegrams at the Western Union Telegraph office for the following: I. M. Gates, E. L. Hall, C. H. Orme, L. R. Miller and Burr W. Freer.

ON INSPECTION TRIP—O. N. Creswell, state inspector of weights and measures is on an inspection trip through the northern part of the state. He will visit Williams, Flagstaff and Winslow before his return.

BACK FROM CHICAGO—W. L. King, dancing instructor, has returned from a six weeks trip to Chicago, where he attended a summer course in one of the leading dancing academies. He will open his academy in this city about the first of September.

TWIN GIRLS—Mr. and Mrs. E. C. Stults of 2138 West Adams street are rejoicing over the arrival of twin girls, born yesterday morning. Mother and daughters are doing well. Mr. Stults is one of the prescription clerks at the Central pharmacy.

PRES. KIMBALL IN TOWN—President Andrew Kimball of the Thatcher Academy and member of the state horticultural commission arrived in the city yesterday accompanied by his wife who is on her way to visit a sister at Ogden, Utah.

NEW EFFORTS TO

(Continued from Page One)

but claim to have dispersed the troops which came ashore near Karachall. It is believed in military circles here the landing at Karachall was only a feint to disguise the real intention of the allies although it is said the putting ashore of a strong force at this point might result in working around and cutting the Turkish main line of communications with the peninsula above the Bulair line across the neck of the peninsula.

The forcing of the Dardanelles is realized to be of the greatest importance for it is asserted this is the only way the allies can render immediate aid to Russia and repay the great sacrifices she has made for a common cause. It is believed also it will bring the Balkan states to the side of the allies. Italy is understood to be prepared to lend a hand in the Dardanelles operations.

CERTIFICATES TO BE ISSUED BY CALLAGHAN

State Auditor Will Approve and Audit the Doubtful Claims of Certain Departments—Entire Case to Supreme Court.

Following his decision to pay the claims of most of the state departments, State Auditor Callaghan yesterday advised those departments whose funds are still affected that he could audit and approve their claims, but that pending a decision by the supreme court certificates would be issued in lieu of warrants. Notice to this effect was transmitted to the tax commission, relative to the claims for the salaries of extra help and for office and travel expenses; to the corporation commission, regarding claims for salaries of clerks of the incorporation department; to the adjutant general, in the matter of the national guard funds; and to the board of control, whose claims for publishing reports and traveling expenses are affected.

At the same time the auditor announced his intention of taking the entire case to the supreme court on appeal. As to a number of the appropriations, he stated, there remained no doubt as to his authority to honor claims, but in others there was still some uncertainty. To secure an expression from the higher courts on these points, it would be necessary to appeal the entire case, although the fact that an appeal was being taken would not affect the payment of most of the claims. There was ample authority for their payment in most cases under one authority or the other.

In case the supreme court decides that appropriations exist for the payment of those claims which still remain in doubt, the auditor will call in his certificates and after cancelling them will issue warrants in their place. In case the court should find that no appropriations exist, persons holding the auditor's certificates could present them at the next session of the legislature, when they would undoubtedly be taken care of by a special appropriation. Bankers, it is pointed out, would run little risk in accepting them, as they constitute a claim against the state.

School Books Ordered

With the assurance that the auditor would honor claims against the school fund, at least up to \$100,000, the McNeil company has begun ordering books to fill its contract with the state. The last of the orders to the publishers will go out today, and the books are expected to be delivered by the first of September. It was stated last night that the publishers had been advised in advance, and that no delay was expected.

The auditor's letter regarding the issuance of certificates in lieu of warrants to the tax commission follows: Mr. Jesse L. Boyce, Secretary, State Tax Commission, State House.

Dear Sir:—With reference to claims filed with our department for the payment of salaries of extra help and for travel and office expense of the state tax commission, I beg to advise that pending the decision of the supreme court on the question of appropriations this department can audit and approve such claims, but in lieu of issuing its warrant will issue a certificate.

Yours very truly,
J. C. CALLAGHAN,
State Auditor.

CITY LEASES RIVERSIDE

(Continued from Page One)

city but four dollars. For many months there has been a popular movement looking to the acquisition by the city of Riverside Park to be operated municipally. The commission has gone into the matter quietly but thoroughly. The city manager, the city engineer and the city auditor have made a careful appraisal and audit. It was found that the property as it now stands represents an apparent valuation of \$59,000. There is an outstanding indebtedness of \$46,100. Adding to this sum, \$900 to take care of small indebtedness which may now appear Homer B. King, acting for the Riverside Park Company, has agreed to sell the park for that amount. This means that for \$47,000, practically the actual amount of the present indebtedness, the city may secure a public amusement park that represents an actual outlay of \$15,000 in excess of that amount.

The figures presented by the city engineer and the audit made by the city auditor were in no way influenced by or arrived at by suggestion of other act of the park proprietors. Every aid was given the investigators in securing the data and information they desired, but their conclusions are entirely their own.

There was talk yesterday that notice of application for injunction restraining the commission from purchasing Riverside Park would be filed today. If this notice is actually filed it will have little or no influence with the commission or the city manager for neither has any intention of going further with the matter at this time and has given free expression to the determination of ascertaining the will of the citizens before proceeding further.

HE'S A WESTERNER OF FIFTY YEARS

Major W. A. Mensch of San Diego in the City

Major W. A. Mensch of San Diego arrived in the city yesterday morning on business which will keep him in town for two or three days. Major Mensch is a mining engineer whose profession has taken him into all parts of the country, through Mexico, and gave him a residence in Peru. He is a former resident of this state, having lived for some time in Kingman. He has been in the west for more than fifty years having settled in Colorado in 1863. And there by the way, he met Judge Sloan when a strapping he came into the mountains that the pure air might arrest the ravages of tuberculosis. That they were permanently arrested is proved by the robust appearance of them, judged now, during the last quarter of a century.

Major Mensch was for many years the Colorado representative of the Economist of Boston and London and other journals throughout the world dealing with technical matters. Speaking of the San Diego exposition he said that it was successful from every point of view. The attendance is now good though early in the season it was light.

Having spent so much time among the Mexicans, the major is very much interested in the outcome of the revolution. He does not believe that peace will be restored without the intervention of an outside nation and even then, such a government as will result will have to be maintained by the intervenor. On this subject, Major Mensch believed that this government should if possible acquire the peninsula of Lower California which is not the barren waste it is generally supposed to be, but is rich in minerals, in agricultural and fruit land. Its valleys are larger than those of southern California and the irrigating possibilities are much greater. Situated between two bodies of salt water the climate is not unpleasant. The major hopes that this arrangement may be carried out and that Lower California may sometime be a part of the state of South California, embracing the five southern counties of California.

ALL IN READINESS FOR MOOSE SOCIAL

Pleasant Affair is Arranged For Tomorrow Evening at Moose Home

At the regular meeting of Phoenix Lodge No. 708, Loyal Order of Moose held last evening, it was decided to throw the entire support of the lodge behind the plan to hold a mid-summer social night at Moose Home on Thursday evening. The entertainment committee has been working untiringly the past few days to the end that the proposed affair should be a success. The plans were outlined before the general meeting last evening and there is now every assurance that there will be record breaking crowd in attendance.

Moose Home with its superb ventilation and numerous electric fans is one of the coolest spots in Phoenix. The club rooms which will be thrown open to all visitors on Thursday night are comfortable and cozy. It is the plan to charge a general admission fee of fifty cents for gentlemen and to admit all ladies free. Once inside the rooms everything will be free. This will include dancing, ice cream and other refreshments. There will be excellent music and a right royal good time is assured all who attend.

At the buffet ice cold drinks will be on sale, but this will not affect the free refreshments. The Moose are known for their hospitality and the success of their social affairs is generally understood. An earnest invitation is extended not only to Moose and their friends, but also to the general public to attend this social. The grand march will begin at 8:30 sharp with the Hose, Sweet Home waltz at midnight. The dance floor is one of the best in the city.

LARGEST STEAMSHIP CARGO

On its last trip to the Pacific coast from Oriental ports, the Great Northern steamship Minnesota carried what its owners say was the largest cargo ever shipped in one bottom in the history of shipping. The total of the cargo estimated at nearly thirty thousand tons. Included were 38,500 bales of hemp from Manila, bound for Chicago, and 2,730 bags of peanuts for the Pacific coast. From Kobe came 27,500 chests of tea for overland points via the Great Northern road, principally Chicago, New York, Montreal and Toronto. There were 42,430 bags of Manchurian maize and more than fifty-five hundred cases of porcelain from Japanese ports. From Yokohama was shipped treasure amounting to 1 1/2 million yen in gold coin.

MEXICAN CATHOLIC CHURCH

A. E. Tedondo, president of the Mexican Catholic Church yesterday received from Miss Concha de la Lama, agent for the Primafusa Club a check for \$350, the net proceeds of the Kermesse recently given by that organization. The money will be added to the building fund of the new Catholic church to be erected by the Spanish speaking Catholics of the city.

THE Employers' Liability Act

of Arizona, following the mandates of Section XVIII of the State Constitution, provides that all employers shall be liable for the death or injury caused by any accident due to conditions of such occupation, of any employee in certain occupations classed as hazardous in the Act, and most of the employers' legal defenses are removed.

The employee can elect, after the accident, whether to sue under the Employers' Liability Act, or claim compensation, thus giving the employer no opportunity of avoiding such claims.

The combination policy of the Maryland Casualty Company gives employers full protection.

Let us explain its provisions and coverage.
